

Buttons

Docs: [Components / Buttons](#)

Description

There are two distinct button styles, filled background and outline, which can be further modified in size and color. Can be applied to `<button>`, `<input>`, and `<a>`.

Use Cases

- Forms
- Marketing call to actions

Button Group

Docs: [Components / Button Group](#)

Description

A series of buttons in a single line. Options include: dropdowns, sizes, and vertical layout.

Use Cases

- Email signup or search form
- Primary action with a dropdown of secondary actions.

Components Visual Reference

Sample

A worksheet to help you learn the component names and acts as a quick reference when sketching or working with a developer.
